

NAMAN KHATER

Mumbai, India | (+91) 958-604-8530 | naman22khater@gmail.com | LinkedIn | GitHub | Portfolio

PROFESSIONAL SUMMARY

Full-stack Software Engineer with **3+ years of experience** building scalable enterprise applications using Angular, React, ASP.NET, and Node.js. Proven track record of accelerating feature delivery by 30%, improving system performance by 20%, and integrating Generative AI capabilities that boosted product efficiency by 40%. Experienced in managing end-to-end development lifecycles, reducing technical debt, and collaborating cross-functionally to deliver client-facing solutions. Seeking a Senior Software Developer or equivalent role to drive technical strategy and product impact at scale.

TECHNICAL SKILLS

Languages:	Python, Java, C, JavaScript, TypeScript, SQL
Frontend:	React, Angular, Next.js, HTML5, CSS3, Tailwind CSS
Backend:	Node.js, ASP.NET, Django, Spring Boot, REST APIs, GraphQL
Cloud & Databases:	AWS (EC2, S3, Lambda), Azure, MongoDB, PostgreSQL, SQL Server
DevOps & Tools:	Docker, Jenkins, Git, GitHub Actions, CI/CD, Postman
AI/ML:	Generative AI Integration, LLM APIs, Model Context Protocol (MCP)

PROFESSIONAL EXPERIENCE

Software Engineer | GEP Solutions

Jun 2023 - Present

Navi Mumbai, India

- Engineered low-code solutions using **Angular** and **ASP.NET**, accelerating feature development by **30%** and streamlining client customization across 15+ enterprise modules.
- Resolved complex design constraints in low-code modules, owning the full development lifecycle from architecture to deployment and enhancing system scalability by **20%**.
- Partnered with the Generative AI team to integrate **AI-powered features** into the platform, improving usability and elevating product efficiency by **40%** for end users.
- Refactored and optimized legacy codebases, reducing technical debt by **25%** and cutting bulk data processing time by **40%** through asynchronous workflows and query optimization.
- Coordinated with cross-functional teams (product, design, QA) to translate business requirements into solutions, playing a pivotal role in a record-setting customer onboarding completed in **20% less time**.

Software Engineer Intern | GEP Worldwide

May 2022 - Jul 2022

Mumbai, India

- Developed UI/UX components and automated API testing using **React**, **Node.js**, and **Cypress**, improving test coverage and reducing manual QA effort by **30%**.
- Contributed to the test automation framework, enabling faster regression cycles and improving release confidence.

Junior Developer | DSC NIT Surat (Google DSC)

Jun 2020 - Jun 2021

Surat, India | Part-time

- Built web applications and mentored peers in **JavaScript** development as part of the Google Developer Student Club, supporting technical workshops and hackathons.

PROJECTS

Mongo Architect

Sep 2025 - Dec 2025

Tech: React.js, MongoDB, JSON, VS Code Extension API

- Built a visual MongoDB schema modeler enabling developers to design database schemas visually and export/import them as JSON files, streamlining database planning workflows.
- Integrated with VS Code as an extension, bringing schema design directly into the development environment.

E-Commerce Platform

2023

Tech: React, Node.js, MongoDB, Docker, Next.js

- Created a modular website starter template that reduced project setup time by **50%**, enabling faster go-to-market for clients.
- Integrated payment gateways and order management systems, reducing transaction time by **10-15%** through background task processing and async job queues.

Loan Management Software

2022

Tech: Angular, Node.js, MongoDB, AWS

- Built a full-stack application reducing manual loan tracking by **70%**, with dashboards for loan data accessibility and reporting efficiency.
- Implemented secure authentication, automated loan processing workflows (reducing errors by **60%**), and real-time financial reporting tools for stakeholders.

EDUCATION

B.Tech, Computer Science and Technology | SVNIT Surat

2019 - 2023

Sardar Vallabhbhai National Institute of Technology, Surat

- Led the **Microsoft Learn Student Ambassador** program at SVNIT, promoting emerging technologies through workshops and hands-on projects impacting **2,000+ students**.
- Head of Sponsorship Committee, Cultural Festival SVNIT (2021-2022).

CERTIFICATIONS

- **Model Context Protocol (MCP): Hands-On with Agentic AI** — LinkedIn (Mar 2026)
- **Software Architecture Foundations** — LinkedIn (Aug 2025)
